Employment: 1,312 (1,155 hourly; 157 salaried)

Union Local: UAW Local 869, 889 and 412

Plant History: Facility was completed in 1948 and production began in 1949. Major expansions were implemented in 1952, 1964, 1965 and 1986. FCA confirmed on June 25, 2014, that it would invest $63 million to expand capacity at the facility. The investment was used to purchase and install the latest high-speed Servo Tandem Press technology (a 180-inch press line). The new press line has increased capacity by up to 12,000 hits per day or approximately 3.6 million parts per year.

On Feb. 26, 2019,FCA announced that it would invest $245 million in the facility to support additional production of Jeep® and Ram vehicles being created as part of a $4.5 billion investment announcement that will impact five existing

Michigan facilities and build a new assembly plant within the city of Detroit. In total, the proposed projects will create nearly 6,500 new jobs.
