Assembly: Toledo North
Assembly Plant, Toledo, OH

2010 JEEP LIBERTY GIVES OWNERS PERSONAL FREEDOM AND CAPABILITY THAT ONLY COMES FROM JEEP

The 2010 Jeep Liberty gives customers an “only in a Jeep” open-air experience with its industry-exclusive Sky Slider full-length open canvas roof.

New for 2010 is interactive Decel Fuel Shut Off (iDFSO). Standard on all models, iDFSO turns off fuel during vehicle deceleration, which improves fuel economy without any noticeable changes in engine performance. In addition, the new standard fuel-saver indicator displays when the vehicle is driven in a fuel-efficient manner.

Other standard features for 2010 include front-row Active Head Restraints, premium seat trim with stain-repel seat fabric, air filtration system and larger floor mats.

The 2010 Jeep Liberty features the industry-exclusive Sky Slider full-length open canvas roof. The Sky Slider roof may be moved to several positions, including full forward, full rear or partially open to any position in between with a convenient express one-touch switch.

A 3.7-liter V-6 engine is standard on all Jeep Liberty models. The 3.7-liter engine produces 210 horsepower (157 kW) @ 5,200 rpm and 235 lb.-ft. (319 N•m) of torque @ 4,000 rpm.

The 2010 Jeep Liberty offers two four-wheel-drive systems. Command-Trac II® is a part-time four-wheel-drive system, which is the standard 4WD configuration. Command-Trac II operates in 2WD, 4WD Lock, 4 WD Low and Neutral.

The optional Selec-Trac II® is a full-time, active on-demand four-wheel-drive system. Selec-Trac II operates in 2WD, 4WD Auto, 4WD Low and Neutral.

The 2WD position is for normal driving and achieves optimal fuel economy as the front driveshaft is disengaged from the transfer case, and power is directed to rear wheels.

The Command-Trac II® 4WD Lock position locks the front and rear driveshaft together and forces front and rear wheels to rotate at the same speed. These positions are intended for loose or slippery road surfaces only.

In the Selec-Trac II 4WD Auto position, the transfer case anticipates and prevents wheel slip. It is ideal for a range of road settings including dry pavement conditions not typically suited for conventional part-time four-wheel-drive systems.

4WD Low is for true off-road conditions and is engaged at speeds of 0-2 mph. Front and rear driveshafts are locked together and a second gearset multiplies torque which provides traditional Jeep capability. 4WD Low is suitable for speeds less than 30 mph.

Vehicles equipped with Jeep Liberty's four-wheel-drive systems are Trail Rated®.

NEW FOR 2010

- Interactive Decel Fuel Shut Off (iDFSO)
- Fuel-Saver with “ECO” lamp indicator in cluster
- Standard front-row Active Head Restraints
- Uconnect™ Phone (Limited model)
- Front-passenger Express-up power window (Limited model)
- Power heated manual folding mirrors (Sport model)
- Standard air filtration system
- Standard premium seat trim with stain-repel seat fabric and front-passenger fold-flat seat
- Leather interior seat trim (Limited model)
- Heated front seats (Limited model)
- Power driver and passenger leather seats with manual lumbar control (Limited model)
- Larger floor mats standard
- Light Sandstone Metallic replaces Light Graystone exterior color

SAFETY AND SECURITY

More than 25 advanced safety and security features including:

- Advanced multi-stage air bags
- Anti-lock Brake System (ABS)
- Brake Assist
- Electronic-roll Mitigation (ERM)
- Electronic Stability Control (ESC)
- Hill-descent Control (HDC) (4WD only)
- Hill-start Assist (HSA)
- ParkSense® rear-park assist system
- Supplemental side-curtain air bags

2010 JEEP® LIBERTY AT A GLANCE

2010 Jeep® Liberty remains true to its legendary 4x4 heritage

- Choice of two 4x4 systems
- Selec-Trac II® four-wheel-drive system – Full-time, shift-on-the-fly, active four-wheel drive system offers customers the benefit of a fully electronic two-speed active transfer case and Brake-traction control system (BTCS). It instantly anticipates wheel slip and redirects torque accordingly, which is ideal for off-roading or when driving in inclement weather
- Command-Trac® II four-wheel-drive system – Part-time, shift-on-the-fly, fully electronic system provides four-wheel-drive capability delivered through a two-speed transfer case for use on slippery or loose surfaces (snow, mud or sand)
- Hill-descent Control (HDC) – Allows a smooth and controlled hill descent on rough or slippery terrain without the driver needing to touch the brake pedal
- Hill-start Assist (HSA) – Assists drivers when starting a vehicle from a stop on a hill by maintaining the level of brake pressure applied for a short period of time after the driver's foot is removed from the brake pedal
- Neutral position permits flat towing a Liberty behind a motor home. A push-pin button is provided to shift the transfer case into Neutral (4WD only)
- Jeep Trail Rated capability

On-road ride, handling, performance and fuel economy

- Independent front suspension, five-link rear suspension and rack-and-pinion steering for improved on-road ride and handling
- 3.7-liter SOHC V-6 engine delivers 210 horsepower (157 kW) @ 5,200 rpm and 235 lb.-ft. (319 N•m) of torque @ 4,000 rpm and improved fuel economy
- Interactive Decel Fuel Shut Off (iDFSO)
- Fuel-Saver with "ECO" lamp indicator in cluster
- With optional Trailer-tow package, Trailer-sway Control (TSC) helps reduce trailer sway and improves handling in adverse towing conditions caused by crosswinds and traffic
- Unsurpassed 5,000-lb. trailer-towing capability (when properly equipped with Trailer-tow package)
- Standard safety and security features include Supplemental Side-curtain Air Bags, Electronic Stability Control (ESC), Electronic-roll Mitigation (ERM) and Brake Assist, Anti-lock Brake System (ABS), Brake-traction control system (BTCS) and Tire-pressure Monitoring (TPM)

Classic Jeep exterior styling with functional interior space

- Rugged appearance, flatter hood, taller seven-slot grille with encased round headlamps
- Functional interior space – standard fold-flat front-passenger seat, fold-flat second-row passenger seats and a reversible cargo floor
- Limited model features bright-side roof rails, bright front grille, fog lamps and interior details
- Sport model features standard body-color fascias and wheel flares

Innovative premium amenities (optional)

- Industry-exclusive Sky Slider™ full-open roof available on Sport and Limited models is four times larger than a conventional sun roof
- Uconnect™ Navigation
- Uconnect Phone
- Eight premium audio speakers and 368-watt amplifier
- Other options include power sun roof, 18-inch chrome clad aluminum wheels, automatic temperature control, ParkSense® rear-park assist system and remote start

2010 JEEP® LIBERTY SPECIFICATIONS

All dimensions are in inches (millimeters) at curb weight and with standard wheels and tires unless otherwise noted.

GENERAL INFORMATION

Body Style	Sport-utility vehicle
Construction	Steel uniframe
Assembly Plant	Toledo, Ohio
EPA Vehicle Class	Multi-purpose vehicle

ENGINE: 3.7-LITER SOHC V-6

Availability	Standard
Type and Description	90-degree V-6, liquid-cooled with balance shaft
Displacement	225.8 cu. in. (3700 cu. cm)
Bore x Stroke	3.66 x 3.57 (93.0 x 90.8)
Valve System	Chain-driven, SOHC, 12 valves, with hydraulic end-pivot roller rockers
Fuel Injection	Sequential, multiport, electronic, returnless
Construction	Cast-iron block, compacted graphite bedplate, aluminum alloy heads, balance shaft
Compression Ratio	9.7:1
Power (SAE net)	210 hp (157 kW) @ 5,200 rpm (56.8hp/L)
Torque (SAE net)	235 lb.-ft. (319 N•m) @ 4,000 rpm
Max. Engine Speed	6,000 rpm, electronically limited
Fuel Requirement	Regular unleaded, 87 octane (R+M)/2
Oil Capacity	5.0 qt. (4.7L)
Coolant Capacity	14.0 qt. (13.25L)
Emission Controls	Two mini-oxidation 3-way catalytic converters; four heated oxygen sensors; EGR and internal engine features ^(a)
Max. Gross Trailer Weight	
Automatic with Trailer-tow package	5,000 lbs. (2250 kg)
Estimated 2010 EPA Fuel Economy –mpg (City/Hwy)	16/22 – 2WD with Automatic Transmission 15/21 – 4WD with Automatic Transmission

^(a) Meets ULEV II emission standard in all 50 states.

^(a) Certified to federal regulations that allow less forceful air bags. Always use seat belts. Remember, a back seat is the safest place for children.

^(b) Always sit properly in the seat with the seat belt fastened. Always observe the passenger air bag indicator lamp to determine if the OCS classification is appropriate. Children 12 and under should always be in a back seat correctly using an infant or child restraint system or the seat belt positioned correctly for the child's age and weight.

PACKAGES / EQUIPMENT GROUPS

Popular Equipment Group—includes roof rails, compass/temperature (in cluster), cargo shade, speed control, deep-tinted glass, fog lamps, P225/75R OWL all-season tires and security alarm	0	—
