October 28, 2012, Auburn Hills, Mich. -

Chrysler Group LLC today reported preliminary third-quarter financial results, including net income of \$381 million, an increase of 80 percent from the same quarter a year ago, reflecting continued sales increases for the product lineup in total, including sales of the all-new Dodge Dart. For the first nine months of the year, net income totaled \$1.3 billion.

"We've changed the conversation at Chrysler Group," said Sergio Marchionne, Chrysler Group LLC Chairman and Chief Executive Officer. "We have revamped our product lineup with such segment-defining models as the Jeep Grand Cherokee and the Chrysler 300. Critics and consumers already are responding positively to the Dodge Dart and to the 2013 Ram 1500, with its best-in-class fuel economy. We continue to work feverishly and are pleased to see that our all-consuming aspiration for excellence is translating into results. We are confirming guidance for the year, and expect Free Cash Flow to be well in excess of \$1 billion."

Net revenue for the quarter was \$15.5 billion, up 18 percent from \$13.1 billion in the third quarter of 2011, primarily driven by a 19 percent period-over-period increase in shipments. For the first nine months of the year, the Company recorded net revenue of \$48.6 billion, a 22 percent increase from the same period a year ago.
