All-new 2007 Jeep® Compass Grows Brand in a New Direction

August 31, 2006, Auburn Hills, Mich. -

The Jeep® brand is expanding into new territory with the all-new 2007 Jeep Compass — an all-new Jeep vehicle that delivers fun, freedom, utility, excellent fuel efficiency (30 mpg) and Jeep 4x4 capability at a terrific value. With Compass' starting U.S. Manufacturer's Suggested Retail Price (MSRP) of \$15,985 (including a \$560 destination charge), Jeep continues to grow by offering a modern-styled sport-utility vehicle (SUV) designed to reach consumers who may not have previously considered the brand.

Jeep Compass will compete in the compact SUV segment, which is expected to grow considerably in the next decade, giving the Jeep brand the opportunity to grow with it. Annual compact SUV volume in the United States was 368,000 in 2005, up from 297,000 units in 2004. The compact SUV segment is expected to almost double to 568,000 units by 2010 and almost triple to 814,000 units by 2016.

Compact and nimble, Jeep Compass brings a new sense of adventure to the compact SUV market, combining the packaging and functionality of an SUV with the performance, handling, fuel economy and price of a compact car or small pickup. Compass is the Jeep brand's first front-wheel-drive-based product with a fully independent suspension for comfortable on-road ride and handling and fun-to-drive characteristics. The two-wheel-drive model equipped with the 2.4-liter World Engine and five-speed manual transaxle achieves 30 miles per gallon on the highway.

In addition to its standard front-wheel-drive configuration, Jeep Compass also has an available full-time, active four-wheel-drive system with lock mode called Freedom Drive I™. This four-wheel-drive system features a lockable center coupling, giving Jeep Compass drivers the ability to handle rough weather conditions and low-traction surfaces.

Side-curtain air bags, Brake Traction Control, driver-controlled three-mode Electronic Stability Program (ESP), Brake Assist, Electronic Roll Mitigation and anti-lock brakes (ABS) with rough-road detection are all standard on the 2007 Jeep Compass.

DESIGN

"The Jeep Compass is an all-new design statement for Jeep," said Trevor Creed, Senior Vice President – Design, Chrysler Group. "Compass fulfills the demands of customers who want a Jeep that is modern, stylish and refined but still offers the credibility and characteristics associated with the Jeep brand name."

The 2007 Jeep Compass is a modern interpretation of Jeep styling. Sleek and sophisticated, the Compass features the Jeep brand's signature seven-slot grille, round headlamps and trapezoidal wheel openings. There also are several modern design twists that distinguish Compass from traditionally styled Jeep vehicles. The all-new silhouette — with a steeply raked windshield, expressive hood and deep fascia — gives the Jeep Compass its modern, yet capable appearance. The Jeep Compass' side profile features uniquely sculptured fender forms delivering a fresh, athletic interpretation of traditional Jeep trapezoidal wheel flares. Standard 17-inch aluminum wheels and available 18-inch aluminum or chrome-clad wheels explore Compass' dual nature: off-road capable and on-road sophistication.

ENGINEERING

"Jeep Compass' available Freedom Drive I active, full-time 4x4 system features all-new only-in-a-Jeep technology," said Larry Lyons, Vice President – Front-wheel-drive Product Team. "This new 4x4 system gives drivers the ability to put the Jeep Compass in four-wheel-drive lock mode to handle deeper snow, sand and other low-traction surfaces."

Jeep Compass will offer customers the confidence and assurance that comes with Jeep 4x4 capability. In addition to its standard front-wheel-drive configuration, Jeep Compass has an available full-time, active four-wheel-drive system with lock mode called Freedom Drive, which gives drivers year-round assurance, as well as the ability to handle rough weather and low-traction conditions. This active four-wheel-drive system is recommended for daily use, including driving in snow and rain.

Added Jeep capability is evident from Compass' 8.5 inches of ground clearance, 21.1-degree approach angle, 32.1-degree departure angle and 21-degree breakover angle with the available 17-inch all-terrain tires.

PRODUCT HIGHLIGHTS

Breakthrough Jeep conquers all-new territory

- Jeep Compass is a fun-to-drive compact Jeep 4x4 that delivers fun, freedom, utility and capability, excellent fuel economy, interior flexibility and standard safety features — all at a great value
- Jeep Compass is an all-new product that combines the packaging and functionality of a sport-utility vehicle with the performance, handling, fuel economy and price of a compact car or small pickup
- Jeep Compass features a standard 172-horsepower 2.4-liter World Engine with dual variable valve timing (VVT) and an available Continuously Variable Transmission (CVT2). A 2.0-liter turbo diesel engine coupled with a six-speed manual transaxle also will be available for markets outside North America
- Compact and nimble, Jeep Compass is the right size for world markets

Modern, urban design appeals to a new class of entry-level Jeep buyers

- Jeep Compass is a modern-styled Jeep that broadens the global appeal of the Jeep brand by targeting new buyers who previously may not have considered the brand
- Jeep Compass offers the credibility and prestige of the Jeep brand

Cool, clever innovations abound

- Jeep Compass offers many innovative interior features and flexibility including:
 - Standard side-curtain air bags
 - Flexible 60/40 split, fold-flat rear seats with available recline featureo Available front passenger seat that folds forward to create a table-like surface for versatility
 - Available 115-volt power outlet in the center console that can power small electronics
 - UltraFloor™ durable vinyl load floor is removable and washable
 - An available dual purpose, self-recharging removable interior lamp that is mounted in the headliner above the cargo area can snap out of the bezel to serve as a flashlight
 - Nine-speaker Boston Acoustics Premium Sound Group with subwoofer includes two articulating speakers packaged in the liftgate. When the liftgate is open, the speakers can swing down to face rearward for tailgating and other activities
 - Sliding center armrest that moves forward 3 inches to accommodate shorter drivers. The armrest lid includes a unique flip pocket for storing a cell phone or an MP3 player
 - YES Essentials® stain resistant, odor resistant, anti-static seat fabric

Value for the money — excellent fuel economy, high-level of standard safety features that include:

- Side-curtain air bags
- ESP
- Brake Traction Control
- Anti-lock brakes
- Brake Assist
- Electronic Roll Mitigation

MODEL LINEUP

2007 Jeep Compass

Standard Features

- Front-wheel-drive configuration

- 2.4-liter World Engine with dual variable valve timing (VVT) (172 horsepower [128 kW] and 165 lb.-ft. [223 N•m] of torque)
- Five-speed manual transaxle
- Side-curtain air bags
- ESP
- Brake Traction Control
- Electronic Roll Mitigation
- Hydraulic Brake Assist
- Anti-lock four-wheel disc brakes
- Cloth seats
- Outdoor temperature display
- AM/FM single-disc CD radio with an auxiliary audio input jack
- UltraFloor™ vinyl load floor
- 12-volt power outlet
- Center console sliding armrest that moves forward 3 inches to accommodate shorter drivers. Includes a unique center console flip pocket for storing a cell phone or an MP3 player
- Flexible 60/40 split, fold-flat rear seats
- Manual windows and locks and foldaway mirrors
- Front and rear floor mats

- Production location: Belvidere Assembly Plant in Belvidere, Ill.
- 2.4-liter four-cylinder World Engine: Global Engine Manufacturing Assembly (GEMA) plant in Dundee, Mich.
- Five-speed manual transmission: New Venture Gear; Syracuse, N.Y.
- CVT2: Jatco, Mexico

MARKET POSITION

Jeep Compass is a modern-styled Jeep designed to reach youthful customers who previously may not have considered the brand. Compass has the credibility and cachet of the Jeep brand at a very affordable price. It also provides excellent performance and fuel economy not expected in a sport-utility vehicle

Demographics

- Gender: 60 percent female/40 percent male
- Median Age: 40
- Median Annual Household Income: \$60,000
- Education: 50 percent college graduate
- Household: 55 percent married

MARKET ADVANTAGES

Jeep Compass brings the Jeep brand cachet to the crowded compact SUV class with all-new Jeep 4x4 technology called Freedom Drive I. This full-time, active 4x4 system has a lock feature, which provides confidence for all-weather driving conditions, as well as for driving on loose-traction surfaces.

Jeep Compass has the most powerful four-cylinder available in the compact SUV class (172 hp), combined with an available second-generation CVT2, which improves fuel-economy by 6 percent to 8 percent, depending on driving

conditions

Jeep Compass offers a high level of standard safety features, including:

- Side-curtain air bags
- ESP
- Brake Traction Control
- Anti-lock brakes
- Brake Assist
- Electronic Roll Mitigation

Jeep Compass offers many innovative interior features and flexibility not available on compact SUVs in its price class, including:

- Standard side-curtain air bags
- Flexible 60/40 split, fold-flat rear seats with available recline feature
- Available front passenger seat that folds forward to create a table-like surface for versatility
- Available 115-volt power outlet in the center console that can power small electronics
- UltraFloor™ durable vinyl load floor is both removable and washable
- An available dual purpose, self-recharging removable interior lamp that is mounted in the headliner above the cargo area can snap out of the bezel to serve as a flashlight
- Nine-speaker Boston Acoustics Premium Sound Group with subwoofer includes two articulating speakers packaged in the liftgate. When the liftgate is open, the speakers can swing down to face rearward for tailgating and other activities
- Sliding center armrest that moves forward 3 inches to accommodate shorter drivers. The armrest lid includes a unique flip pocket for storing a cell phone or an MP3 player
- YES Essentials® stain resistant, odor resistant, anti-static seat fabric
