All-new 2017 Chrysler Pacifica Offers Latest, Innovative Uconnect Systems and Services

- The most technologically equipped of its kind, the all-new 2017 Chrysler Pacifica offers the segment's largest 8.4-inch touchscreen display
- Available all-new, class-exclusive Uconnect Theater rear seat entertainment system with two 10-inch touchscreen displays, device connectivity, built-in apps and more
- Personalization made easy with available 7-inch full-color driver information display (DID) enhanced by vivid and intuitive graphics
- All-new KeySense programmable key fob promotes safe driving habits
- Uconnect's advanced navigation feature includes 3-D city models, digital terrains and intuitive screen graphics
- Acclaimed Uconnect Access services leverage advanced embedded cellular technology:
    - Enables direct, one-touch connections with emergency service providers, roadside assistance dispatchers and vehicle information specialists
    - Available mobile phone app allows Pacifica owners to start their vehicle, lock or unlock doors, and honk the horns and lights from nearly any location
    - Provides on-demand Wi-Fi hotspot subscriptions for a day, week or month
- Standard Active Noise Cancellation and optional premium audio systems deliver the ultimate audio experience for passengers
- Full array of comfort and convenience technologies available, including Stow 'n Vac integrated vacuum, handsfree sliding doors and liftgate, and redesigned Stow 'n Go seating with Stow 'n Go Assist

January 11, 2016, Auburn Hills, Mich. - The 2017 Chrysler Pacifica offers a variety of new Uconnect services and features that benefit not only the driver, but also the entire family. From the all-new Uconnect Theater and the available 7-inch full-color driver information display to the easy-to-use 8.4-inch touchscreen and the acclaimed Uconnect Access services, the 2017 Chrysler Pacifica is the most technologically equipped vehicle of its kind.

All-new Uconnect Theater

Uconnect is transforming the passenger productivity and entertainment experience with the all-new, class-exclusive Uconnect Theater rear seat entertainment system. With Uconnect Theater, passengers can watch movies, play built-in games and connect personal devices to surf the Internet. To quickly navigate through options, passengers can swipe through the touchscreens or use the included Bluetooth touchpad remote control.

The one-of-a-kind Uconnect Theater includes:

- **Screens**: Two high-definition 10-inch touchscreens located on the back headrests of the front driver and passenger seats. Individual content can be displayed on each screen
- **Built-in apps and games**: To help keep passengers entertained, Uconnect Theater offers several embedded apps and games via the 10-inch touchscreens, including math flash cards, checkers, bingo and tic tac toe. With the "Are We There Yet?" app, passengers can view the distance remaining to their destination and estimated arrival time
- **Parental controls**: The driver can mute, turn off and lock out content displayed on each screen

- **Supported devices**: Passengers can select from a variety of devices to connect to Uconnect Theater, including smartphones, tablets, MP3 players, Apple TV, Blu-Ray/DVD, CD, gaming devices, e-readers, USB drives, laptops and digital cameras
- **USB ports**: A USB port located in the first row center stack can be used to play movies on the Uconnect Theater 10-inch screens. Additional ports in the second and third row also provide charging
- **HDMI ports**: HDMI ports are available in the second row to transfer, charge, control and shuffle between a connected device and the vehicle screens
- **Remote controls:** Two Bluetooth touchpad remote controls are included with the Uconnect Theater
- **Headphones:** Uconnect Theater comes equipped with two sets of digital wireless headphones

KeySense technology
Safe driving habits can be promoted and driver distractions can be limited with the available KeySense programmable key fob. Using a four-digit security PIN programmed via the Uconnect 8.4-inch touchscreen, an assigned key fob places limits on speed and audio volume, mutes the audio when front seatbelts are not buckled, prevents the disabling of certain features like Forward Collision Warning-Plus and ParkSense rear park assist and allows blocking of SiriusXM channels.

New 7-inch driver information display
The 2017 Chrysler Pacifica features an available 7-inch full-color driver information display (DID), which enables the driver to personalize the information displayed in the instrument cluster. The display is designed to visually communicate information quickly and easily, using graphics and text.

The DID offers a wide range of customization options, from a basic digital speed read out to more detailed vehicle status information, such as tire pressure, fuel economy, audio, warning messages and turn-by-turn navigation. Operation of the DID is intuitive and clearly communicated to users with easy-to-understand icons and instructions.

Available Uconnect systems on the 2017 Chrysler Pacifica
Three Uconnect systems are offered on the all-new Chrysler Pacifica:

Uconnect 5.0 – Offers 5-inch touchscreen, integrated voice command and Bluetooth capability, handsfree calling and voice text reply, USB and aux capability, and a one-year trial of SiriusXM All Access

Uconnect 8.4 – Offers a six-month trial subscription to Uconnect Access services, 8.4-inch touchscreen, USB and aux capability, integrated voice command and Bluetooth capability, SiriusXM All Access (including a 12-month subscription), and handsfree calling and voice text reply. Uconnect 8.4 offers customers the flexibility to purchase navigation after vehicle sale

Uconnect 8.4N – Offers full-feature navigation with one-step voice destination entry and 3-D landmarks, city models and terrains; a 12-month trial subscription to Uconnect Access services; 8.4-inch touchscreen; USB and aux capability; integrated voice command and Bluetooth capability; handsfree calling and voice text reply; SiriusXM All Access (including a 12-month subscription); and SiriusXM Travel Link and SiriusXM Traffic, both with a five-year subscription

The Uconnect 8.4 and 8.4N systems also include:

- **Drag and Drop menu bar:** FCA US vehicle owners now have the ability to personalize their touchscreen controls to fit their lifestyle and have one-button access to the features and services they value most. Drivers can simply drag their favorite feature or service icon from the apps menu and move them to their Uconnect system's main menu bar
- **Siri Eyes Free**: Via the voice button on the steering wheel and compatible with an Apple iPhone 4s or later, with Siri Eyes Free, drivers can speak natural language voice commands to send text messages, play music, set reminders, place phone calls and access turn-by-turn directions
- **Do Not Disturb**: Vehicle owners who prefer not be interrupted with phone calls or text messages while driving can choose to turn on the "Do Not Disturb" and "Reply with Text Message" feature
- **SiriusXM Tune Start**: Customers can start songs from the beginning when switching between their favorite pre-set satellite radio channels

- **Vehicle User Guide**: Allows drivers to view their owner's manual via the 8.4-inch touchscreen and use as a quick reference guide for vehicle information, including looking up icons that may appear in the cluster display. The Uconnect and powertrain portions of the application are dynamic and will only present VIN- and vehicle-specific information. The content also can be updated over-the-air so the owner information will remain current

Uconnect Access: A suite of connected services

Uconnect Access offers a variety of services leveraged by a built-in data connection:

- **Vehicle Finder**: With a touch of a button, customers can view the location of their Pacifica via map, satellite or hybrid views using the Vehicle Finder service on the Uconnect Access app. Once a view is chosen, a prompt menu will ask to "Find Route" or "Sound Horn." When the Find Route icon is chosen, customers will be prompted to select a navigation application to route via walk or drive
- **Send 'n Go** : Located within the Uconnect Access app, the "Send Destination to Vehicle" service allows customers to send a location address directly to their Uconnect system's large touchscreen and navigate with ease
- **Remote lock, unlock and start**: Drivers can remotely lock or unlock their doors and start their Pacifica from virtually anywhere in the U.S. by using their smartphone or computer
- **Monthly Vehicle Health Report**: A monthly report is sent to customers' email informing them about their Pacifica's performance status. Vehicle owners can review and monitor the status of key systems, including powertrain, oil and fluids, brakes, suspension and safety systems
- **Vehicle Health Alert**: Vehicle owners will immediately receive an email alert if one of the key powertrain, oil and fluids, brakes, suspension or safety systems requires attention. Once a warning light of one of these key systems appears in the vehicle dashboard, an alert will be sent immediately to the vehicle owner's email account that explains what the warning light means, how the vehicle is affected and what action needs to be taken
- **9-1-1 and Assist Buttons**: Located on the rearview mirror, drivers can get connected to emergency service providers, roadside assistance dispatchers and vehicle information specialists
    - 9-1-1 Call Button: Connects directly with emergency assistance
    - Assist Call Button: Connects directly with Roadside Assistance to help with items such as flat tire or vehicle tow, Uconnect Care for inquiries regarding the vehicle's Uconnect system or with Vehicle Care, which provides complete support for FCA vehicles
- **Theft Alarm Notification**: Vehicle owners can choose to receive a text message notification any time the vehicle alarm is triggered
- **Yelp Search**: Drivers looking for popular locations nearby can use their voice to conduct a Yelp search
- **Voice texting**: With the voice texting service, drivers can use their voice to dictate a free-form text message and send the message with a Bluetooth MAP (Message Access Profile) -enabled device using cloud-based voice recognition
- **Wi-Fi Hotspot:** Pacifica owners can transform their vehicle into a Wi-Fi hotspot on-demand for a day, week or month so passengers can check e-mail or browse news sites
- **Uconnect Access via Mobile:** With the included five-year trial, Uconnect Access Via Mobile enables vehicle owners to use their mobile phone's data plan to stream and control popular Internet radio apps (Aha by Harman, iHeartRadio, Pandora and Slacker Radio) via their Uconnect system's steering wheel controls and touchscreen

SiriusXM All Access

For those all-new 2017 Chrysler Pacifica vehicles equipped with satellite radio, customers receive a one-year subscription to the SiriusXM All Access service, providing them with more than 150 channels of premium programming, including every NFL game, Howard Stern, every NASCAR race, Oprah Radio and MLB Network Radio, plus access to SiriusXM Radio on smartphone and other connected devices, as well as online at siriusxm.com.

SiriusXM Travel Link

Available on vehicles equipped with the Uconnect 8.4N system, SiriusXM Travel Link helps to make every trip more efficient. Drivers will enjoy a five-year trial subscription to services like fuel prices, national weather information, sports scores and movie listings.

SiriusXM Traffic
Also available with a five-year trial on an equipped Uconnect 8.4N system, SiriusXM Traffic works with the vehicle's navigation system to display traffic speed, flow information and accident information to assist drivers in routing around congested areas. Services provided include traffic speed, accidents, construction and road closures, and alternate route guidance and mapping.

New premium audio systems
The all-new 2017 Chrysler Pacifica offers three audiophile-quality audio systems to immerse passengers in the ultimate audio experience:

Six-speaker system with Active Noise Control (standard on LX, Touring, Touring-L and Hybrid Premium):

- Two 3.5-inch speakers in the instrument panel
- Two 6x9-inch speakers located in the front doors
- Two 6x9-inch speakers located in the rear doors
- Four Active Noise Cancellation (ANC) microphones

Alpine 506-watt, 12-channel, 13-speaker system (available on Touring-L; standard on Touring-L Plus, Limited and Hybrid Platinum):

- Three 3.5-inch speakers in the instrument panel
- Two 6x9-inch speakers located in the front doors
- Two 3.5-inch speakers located in the rear doors
- Two 6x9-inch speakers located in the rear doors
- Two 3.5-inch speakers located in the rear quarter panel (cargo area)
- Two 6x9-inch liftgate speakers
- Four Active Noise Cancellation (ANC) microphones

Harman Kardon premium 12-channel, 20-speaker system (available on Touring-L Plus and Limited):

- Three 3.5-inch and 1-inch speakers located in the instrument panel
- Two 3.5-inch and 1-inch speakers located in the rear door
- Two 3.5-inch and 1-inch speakers located in the rear quarter panel (cargo area)
- Two 6x9-inch speakers located in the front door
- Two 6x9-inch speakers located in the rear door
- Two 6x9-inch liftgate speakers
- One 12-channel class-D amplifier

Packed with convenience features
The 2017 Chrysler Pacifica offers a wide array of comfort and convenience technologies, including Keyless Enter 'n Go, remote start, and heated and ventilated seats. Other notable features include the segment-first handsfree sliding doors and liftgate, which are operated by making a kicking motion under the sliding door or rear bumper to open the sliding doors or liftgate.

For quick cleanup, the Stow 'n Vac integrated vacuum, powered by RIDGID, is the highest-powered in-vehicle vacuum in the market, and is located in the C-pillar trim area for easy access to all corners of the vehicle.

The Stow 'n Go seating and storage system, a hallmark of FCA US minivans for more than 10 years, has been redesigned for added ease of use, and the addition of the available all-new Stow 'n Go Assist feature helps to further simplify the process. With the press of a button on the B-pillar, the front seat moves forward to allow the second-row seat to be stowed into the floor tub. Once the seat is stowed, pressing the button again moves the front seat back to its starting position. In addition, the Easy Tilt second-row seats allow for easy access to the third row, even with an empty child seat installed in the second row.

Chrysler Brand
The Chrysler brand has delighted customers with distinctive designs, craftsmanship, and advanced innovation and

technology since the company was founded in 1925. Chrysler continues to build on that nearly 100-year legacy of creating ingenious products and technologies for mainstream customers, moving forward on an electrified transformation that will launch the brand's first battery-electric vehicle in 2025 and an all-electric portfolio in 2028.

The Chrysler Pacifica continues to reinvent the minivan, a segment Chrysler created 40 years ago. The Chrysler Pacifica Plug-in Hybrid symbolizes the brand's electrification evolution, representing the first electrified minivan in the segment and achieving 82 MPGe, an all-electric range of 32 miles and a total range of 520 miles. Chrysler Pacifica delivers the most standard safety features and most advanced available all-wheel-drive system in its class and is also the most awarded minivan over the last seven years with more than 175 honors and industry accolades since its introduction as a minivan.
