Canada's best-selling minivan, Dodge Grand Caravan, held its leadership position with 4,964 sales, an increase of 6 per cent compared with 4,689 sold in the same month, one year ago. New additions to the FCA Canada lineup this year continue to arrive at dealerships across the country including the all-new, Windsor-built Chrysler Pacifica, which has more safety features than any other vehicle in the segment, and the iconic Fiat 124 Spider, with its classic Italian design and proven performance.

The July 2016 FCA Canada Sales numbers were calculated using a new sales reporting methodology, similar to that which was implemented by FCA US LLC and outlined in an explanatory note issued on July 26, 2016, as modified to reflect differences in the Canadian sales reporting process. Sales by dealers are derived from the New Vehicle Delivery Report, or NVDR system and reported upon the first sale reported in the NVDR system as the NVDR system deployed to FCA Canada dealers does not have the capacity to record "unwinds" automatically. Under the new reporting methodology, fleet sales are recorded as sales upon shipment by FCA Canada of the vehicle to the customer or end user.
