FCA Canada: Go Wide: 2021 Dodge Challenger Scat Pack 392 Shaker and T/A 392 Now Available with Widebody Package

Widebody Package brings more performance to the naturally aspirated 6.4-litre 392 HEMI® lineup with the Challenger Scat Pack 392 Shaker and T/A 392

- Newly available Widebody Package on the 2021 Dodge Challenger Scat Pack 392 Shaker and T/A 392 offers a combination of unique heritage appointments and improved performance with the wider wheels and tires
 - Challenger Scat Pack 392 Shaker Widebody comes with the legendary cold-air grabbing Shaker, which extends from the engine compartment, directing cooler air back into the 392 HEMI® V-8 engine
 - Challenger T/A 392 Widebody builds on the T/A legacy with painted Satin Black hood, Satin Black wrap roof and deck lid, as well as roof and deck-lid graphic paired to the T/A body-side stripes, "Air Catcher" headlamps with LED-illuminated T/A logos and more
- Challenger Scat Pack 392 Shaker Widebody starts at a Canadian manufacturer's suggested retail price (MSRP) of \$63,495; the Challenger T/A 392 Widebody starts at a Canadian MSRP of \$67,495 (all prices exclude destination charge)
- Dealer orders for the Challenger Scat Pack 392 Shaker Widebody are now open with vehicles scheduled to arrive in Dodge//SRT dealerships early next year
- Dealer orders for the Challenger T/A 392 Widebody will open later this year with vehicles scheduled to arrive in Dodge//SRT dealerships in the spring

September 4, 2020, Windsor, Ontario - Dodge is literally expanding the availability of its Widebody Package, bringing it to the Challenger Scat Pack 392 Shaker and T/A 392 for the 2021 model year.

"The Widebody on Charger and Challenger continues to gain traction, making way for wider wheels and tires, which means more grip and faster times at the drag strip," said Tim Kuniskis, Global Head of Alfa Romeo and Head of Passenger Cars – Dodge, SRT, Chrysler and FIAT, FCA – North America. "Bringing that Widebody capability to the Challenger Scat Pack 392 Shaker and T/A 392 allows us to stick to that successful formula and offer more performance to more members of the Brotherhood of Muscle."

Building on the success of the Challenger Scat Pack 392, the Challenger Scat Pack 392 Shaker and T/A 392 are powered by the same naturally aspirated 392 HEMI V-8 that delivers 485 horsepower and 475 lb.-ft. of torque. The innovative TorqueFlite eight-speed automatic transmission is standard, while the Tremec six-speed manual transmission is available.

The Widebody on the Challenger Scat Pack 392 adds 8.8 centimetres (3.5 inches) of overall width, rides on sticky 305/35ZR20 Pirelli tires mounted to 20-by-11-inch wheels and has an SRT-tuned chassis and SRT-tuned high-performance adaptive damping suspension. It also features steering-wheel-mounted paddle shifters (with automatic transmission), dual-extractor hood, SRT Performance Pages with drive modes and Line Lock, which engages the front brakes to hold the Challenger stationary, but leaves the rear wheels free for a burnout to heat up and clean the rear tires.

Now, new for 2021, Challenger Scat Pack 392 Shaker and T/A 392 buyers who opt for the Widebody Package will get

the same Widebody performance, which includes an improvement of close to 2 seconds per lap or 12 car lengths compared with the Scat Pack 392. In a quarter-mile comparison, the Challenger Scat Pack 392 Widebody gains .2 seconds, running a 12.1-second ET at 180 km/h (112 mph).

2021 Dodge Challenger Scat Pack 392 Shaker Widebody

The Challenger Scat Pack 392 Shaker's history goes deep into the 1970 original muscle car era; now Dodge is taking it wide with the Widebody Package with the 2021 Dodge Challenger Scat Pack 392 Shaker Widebody.

As the name suggests, the legendary cold-air grabbing Shaker extends from the engine compartment, directing cooler air back into the 392 HEMI V-8 engine. Like the original 1970 Challenger R/T with the Shaker hood, the Scat Pack 392 Shaker Widebody continues the Dodge brand's tradition of an engine-mounted hood scoop that "shakes" with the movement of the powertrain.

The functional Shaker hood comes with a Mopar cold-air intake, conical air filter and optimized air box for improved airflow and performance. Lift the hood and enthusiasts will also be treated to a "SHAKER" underhood decal — reminiscent of the original 1970 Challenger.

The Challenger Scat Pack 392 Shaker Widebody has a starting Canadian MSRP of \$63,495 (all prices exclude \$1,895 destination charge). Dealer orders for the Challenger Scat Pack 392 Shaker Widebody are now open, with vehicles scheduled to arrive in Dodge//SRT dealerships early next year.

2021 Dodge Challenger T/A 392 Widebody

Initially built for the Sports Car Club of America's (SCCA) Trans Am racing series in 1970 with only 2,399 ever built, the original Challenger T/A is considered one of the most sought-after muscle cars of all time. The 2021 Dodge Challenger T/A 392 Widebody builds on this legacy with unique appointments and performance hardware, which include:

- Painted Satin Black hood, Satin Black wrap roof and deck lid
- Roof and deck-lid graphic paired to the T/A body-side stripes
- Black spoiler with T/A spoiler decal
- "392" fender decal
- "Air Catcher" headlamps with LED-illuminated T/A logos
- NACA ducted hood designed to feed a modified SRT Hellcat air box with Mopar conical filter, which optimizes cold air intake through these two signature fresh-air inlets
- For an even bolder throwback, akin to the original 1970 model, factory-installed hood pins are available
- 1971-inspired "tic-toc-tach" gauge cluster features Bright White concave faces and Gloss Black details
- Black upholstered performance seats with signature Houndstooth cloth inserts give the driver and front passenger greater lateral support
- Unique heated and ventilated Nappa leather performance seats in Black with Tungsten accent stitching and embroidered "T/A" logo (available with Plus Group)

The Challenger T/A 392 Widebody has a starting Canadian MSRP of \$67,495. Dealer orders for Challenger T/A 392 Widebody will open later this year with vehicles scheduled to arrive in Dodge//SRT dealerships in the spring.

FCA Canada

Founded as the Chrysler Corporation in 1925, FCA Canada Inc. is based in Windsor, Ontario, and celebrates its 97th anniversary in 2022. FCA Canada is a wholly owned subsidiary of FCA, a North American automaker based in Auburn Hills, Michigan and member of the Fiat Chrysler Automobiles N.V. (FCA) family of companies. FCA Canada has approximately 440 dealers that sell Chrysler, Dodge, Jeep®, Ram, FIAT and Alfa Romeo products, as well as SRT performance products. The company also distributes Mopar and Alfa Romeo parts and accessories. In addition to its assembly facilities, which produce the Chrysler Pacifica, Chrysler Pacifica Hybrid, Chrysler Voyager and Chrysler Grand Caravan (Windsor) and Chrysler 300, Dodge Charger and Dodge Challenger (Brampton), FCA Canada operates an aluminum casting plant in Etobicoke, a research and development centre in Windsor, and has sales offices and parts distribution centers throughout the country.
