October 14, 2020, Auburn Hills, Mich. - Alfa Romeo is launching a new campaign titled “[Control](#)” across select broadcast and cable television networks, digital streaming and online video placements. The spot, with voice-over by actor Alexander Skarsgård, who appeared in the Alfa Romeo “Type A” campaign earlier this year, shines a spotlight on both the 2020 Alfa Romeo Giulia Quadrifoglio and Stelvio Quadrifoglio.

“For Alfa Romeo, the driver is always at the center,” said Tim Kuniskis, Global Head of Alfa Romeo and Head of Passenger Cars – Dodge, SRT, Chrysler and FIAT, FCA – North America. “This driver-centered focus, highlighted by the new campaign, is enhanced by Alfa Romeo’s updated cockpits featuring premium appointments, a standard 8.8-inch center touchscreen display, state-of-the-art connectivity and available level II autonomous driving capability, offering our customers more options, ‘control’ and an exhilarating driving experience.”

The video features choreographed stunts with the Alfa Romeo Giulia and Stelvio, shooting the vehicles with long-exposure video, which creates light trail visuals, showcasing the design, performance and control that drivers have in their hands when behind the wheel of an Alfa Romeo.

The music in the spot, “Control,” is by Emmit Fenn. The video was created in partnership with GSD&M.
