

Ram 1500 Crew Cab Earns *TOP SAFETY PICK* 'Hat Trick' as IIHS Announces New Ratings

- Third time a Ram 1500 crew cab pickup has earned the *TOP SAFETY PICK* rating under latest IIHS test regimen
- Automatic Emergency Braking (AEB) graded “superior”
- Highest possible ratings in each of six IIHS crashworthiness tests

February 24, 2022, Auburn Hills, Mich. - The [2022 Ram 1500](#) Crew Cab has earned the *TOP SAFETY PICK* rating from the Insurance Institute for Highway Safety (IIHS) for 2022.

The rating applies to models equipped with Automatic Emergency Braking (AEB) technology and adaptive LED projector headlamps with high-beam assist, and it reprises the truck’s performances in [2021](#) and [2020](#).

“The Ram 1500 Crew Cab’s winning streak underlines our ongoing pledge to deliver exceptional vehicle safety,” said Mike Koval Jr., head of Ram brand. “Our customers use their trucks to provide for their families or help their communities. We want them to do so, safely.”

The IIHS revised its ratings system in 2020 to include a greater emphasis on lighting and AEB. The Ram 1500 Crew Cab’s AEB system, which is standard equipment on Rebel, Laramie, Limited Longhorn, Limited 10th Anniversary and TRX models, earned “superior” rating – the highest possible IIHS grade.

The system is enabled by sensor-fusion technology, which combines camera capabilities with radar sensors to help determine if a frontal impact with another vehicle appears imminent. If, after multiple alerts, the driver does not respond to the potential risk, the system deploys the vehicle’s brakes to help avoid impact or reduce its severity.

Central to the truck’s *TOP SAFETY PICK* rating was its performance in six IIHS crashworthiness tests that included three types of frontal crashes. The remaining tests inflict damage consistent with a side impact, rear impact and a rollover.

The 2022 Ram 1500 Crew Cab achieved the highest possible score in each.

Ram Truck Brand

In 2009, the Ram Truck brand launched as a stand-alone division, focused on meeting the demands of truck buyers and delivering benchmark-quality vehicles. With a full lineup of trucks - the Ram 1500, 2500/3500 Heavy Duty, 3500/4500/5500 Chassis Cab and ProMaster - the Ram brand builds trucks that get the hard work done and families where they need to go.

Ram continues to outperform the competition and sets the benchmark for:

- Best-in-class standard horsepower
- Segment-first 1,000 lb.-ft of torque with Cummins Turbo Diesel
- Most luxurious: Ram 1500 Tungsten with real metal and leather elements and a new 14.5-inch Uconnect touchscreen
- Best ride and handling with a double wishbone front suspension and five-link solid rear axle with available, segment-exclusive, active-level, four-corner air suspension
- Best-in-class available rear leg room
- The most cargo space available in any traditional full size cargo van
- Most capable full-size off-road pickup – Ram Power Wagon
- Most awarded light-duty truck in America
- Highest owner loyalty of any half-ton pickup

The latest [J.D. Power APEAL study](#), which rates the emotional bond between customers and their vehicles, named the 2023 Ram 1500 as the best full-size light-duty pickup.
