2007 Dodge Magnum is a Bold Blend of Packaging, Performance and Unique Proportions

September 1, 2006, Auburn Hills, Mich. -

The 2007 Dodge Magnum is a stylish alternative for consumers who want the comfort and performance of a car, and the capability and image of a sport-utility vehicle (SUV), without sacrificing everyday functionality. Magnum offers a bold, unique profile; exceptional versatility; and rear-wheel and all-wheel-drive performance. Nothing else is like it on the road.

“Armed with cutting-edge technologies, the Dodge Magnum muscled its way onto the streets and changed the way customers think of family transportation,” said George Murphy, Senior Vice President – Global Marketing, Chrysler Group. “The unique combination of packaging, performance and proportions helps the 2007 Dodge Magnum stand out from the crowd.”

An optional Road/Track Performance Group is offered for the first time on the rear-wheel-drive, HEMI® V-8-powered, 2007 Dodge Magnum R/T. This option provides a spirited ride and firm handling for the passionate, enthusiast driver and includes performance-tuned suspension, braking and steering and new large 20-inch chrome-clad wheels and 245/45ZR20 all-season performance tires.

Fortified with integrated safety and security features, the 2007 Dodge Magnum provides outstanding occupant protection on the road. The National Highway Traffic Safety Administration (NHTSA) gave the Dodge Magnum a five-star rating for driver and front-passenger protection in a frontal crash, the highest rating in the U.S. government’s safety crash-test program.

“WHAT’S NEW FOR 2007”

DESIGN

Trevor Creed, Senior Vice President – Design: *“The Dodge Magnum’s bold exterior styling offers a new and exciting alternative for consumers who want a stylish and unique vehicle but who are unwilling to sacrifice everyday functionality. It’s a package with proportions unlike any other in the marketplace.*

The head-turning exterior design of the Dodge Magnum features a bold front grille, long hood, “shooting brake” profile and strong, muscular cues.

The Dodge Magnum features a high beltline on the body, and a roofline that has been pulled down tautly around the windows, creating a unique proportion of body to glass – not unlike that found on hot rods and concept vehicles. The dramatic look is pure Dodge, with every element having a purpose.

The interior of the Magnum features a performance-oriented driver cockpit; a classic, no-nonsense, two-tone color treatment; and subtle Satin Silver accents. A 60-40 split-folding rear seat adds to everyday functionality. The unique rear liftgate swings up instead of out to allow for opening in tight spaces, and provides an unusually large cargo opening for flexible, useful space.

ENGINEERING

Craig Love, Vice President – Rear-wheel drive Platform Team: *“We are excited to bring the Road/Track Performance Group option to the Dodge Magnum lineup for 2007. Driving enthusiasts who desire the very best in sports-car-like ride and handling – wrapped in a boldly styled, versatile vehicle – get that with this package.”*

The 2007 Dodge Magnum lineup features three engines, two transmissions, rear-wheel and all-wheel drive systems, and a variety of suspension tuning characteristics to provide a range of model choices.

The Dodge Magnum offers unmatched performance in its segment when equipped with the legendary 340-hp HEMI V-8 engine, which features a Multi-displacement System (MDS) that seamlessly turns off the fuel consumption in four cylinders when V-8 power is not needed, improving fuel economy as much as 20 percent.

Proven technologies, including Electronic Stability Program (ESP); all-speed traction control system (TCS); and four-wheel, anti-lock brake system (ABS), help control the rear-wheel-drive 2007 Dodge Magnum models and provide exceptional ride and handling.

The all-wheel-drive Dodge Magnum models offer excellent cornering balance under all driving conditions and improved traction in snow and wet-weather conditions.

PRODUCT HIGHLIGHTS

The New Shape of American Muscle

- With its unique profile, exceptional versatility, HEMI power and rear-wheel or all-wheel-drive performance, Dodge Magnum offers a package unlike any other in the marketplace
- The noble, powerful design of the Magnum appears as if chiseled from a metal ingot

- Dodge Magnum design is consistent with the bold, in-your-face philosophy of the Dodge brand

Unmatched HEMI Performance

- The Dodge Magnum offers best-in-class horsepower – 340 hp with 5.7-liter HEMI V-8 engine
- Chrysler Group's Multi-displacement System (MDS) provides world-class combination of performance and fuel economy
- The Dodge Magnum offers the most powerful line of engines in its class: the fuel-efficient 2.7-liter V-6, the 3.5-liter High Output V-6, and the 5.7-liter HEMI V-8 with MDS

Proven DaimlerChrysler Technology

- Technology including Electronic Stability Control (ESP), all-speed Traction Control System (TCS) and four-wheel anti-lock brake system (ABS) have reached new levels of advancement to control rear-wheel-drive cars in a way that is transparent to the driver
- Vehicle communications features (UConnect® Hands-free Communication System using Bluetooth® technology, SIRIUS Satellite Radio, full-map DVD-based navigation system using Global Positioning System (GPS), and rear-seat DVD Video Entertainment System (VES™) emphasize a safe driving environment while enabling consumers to choose the services they want

Outstanding Driving Experience

- Available Road/Track Performance Group on the Magnum R/T offers additional performance features for the driving enthusiast
- Rear-wheel-drive platform allows direct transfer of HEMI power to the pavement
- Available all-wheel drive provides best-in-passenger-car, four-season traction
- An electronically controlled five-speed automatic transmission with Auto Stick offers better performance and fuel economy
- Short- and long-arm (SLA) front suspension system and a five-link independent rear suspension system provide excellent handling and a comfortable ride

Smart Space and Capabilities

- Dodge Magnum's rear liftgate swings up instead of out, and provides extreme access to rear cargo area, including 60-40 split-folding rear seats and optional cargo organizer
- Dodge Magnum offers best-in-class towing capacity – 3,800 pounds (when properly equipped) – to handle most needs

MODEL LINEUP

2007 Dodge Magnum SE (Rear-wheel drive)

- 3.5-liter V-6 engine: Kenosha Engine Plant in Kenosha, Wis.
- 2.7-liter V-6 engine: Kenosha Engine Plant in Kenosha, Wis.
- Five-speed automatic transmission with Auto Stick: Indiana Transmission Plant in Indianapolis, Ind.
- Four-speed automatic Variable Line Pressure transmission: Kokomo Transmission Plant, Kokomo, Ind.

MARKET POSITION

The 2007 Dodge Magnum is a stylish alternative for consumers who want the comfort and performance of a car plus the capability and image of an SUV without sacrificing everyday functionality. The Dodge Magnum combines a high-performance, technically advanced driving machine with versatility and capability in a stylish package. Nothing else is like a Dodge Magnum.

Magnum targets men ages 30-45, middle- to upper-middle-class, who are former sedan or SUV owners looking for something new and exciting that allows them to express their youthful and adventurous side but still serves their need for a functional vehicle.

Demographics

- Gender: 65 percent male
- Age: 30-45
- Median Annual Household Income: \$75,000
- Education: 40 percent college graduates
- Household: 75 percent married
- Occupation: mix of mid-level white-collar workers, skilled tradespeople, and traditional blue-collar workers in high-paying professions

MARKET ADVANTAGES

- 2007 Dodge Magnum continues to thrill customers as one of the hippest vehicles on the road, offering a bold, unique profile; exceptional versatility; optional HEMI power; and rear-wheel and all-wheel-drive performance
- Unmistakable bold Dodge styling, dramatic body-to-glass proportions, a high beltline and a tapered

roofline make Dodge Magnum unlike any other vehicle on the road

- Proven technology such as ESP, all-speed TCS and four-wheel ABS are available to provide exceptional ride and handling in the 2007 Dodge Magnum
- The all-wheel-drive Dodge Magnum SXT and R/T models provide excellent cornering balance under all driving conditions and improved traction in snow and wet-weather conditions
- 5.7-liter HEMI V-8 engine features MDS – improving fuel economy as much as 20 percent but not at the expense of vehicle performance. The 2007 HEMI-powered Dodge Magnum R/T can go 0-60 mph in 6.3 seconds
- Exceptional towing capacity of 3,800 lbs. (when properly equipped)
- Dodge Magnum's extreme-access rear liftgate opens straight up instead of swinging out, to provide an unusually large cargo opening for flexible, useful space
