Chrysler 300C SRT8®: Elegant Design with World-Class Performance

HIGHLIGHTS

- Chrysler 300C SRT8® delivers world-class ride and handling with its performance-tuned suspension, four-piston Brembo disc brakes and SRT-tuned Bilstein monotube shock absorbers suitable for conditions ranging from everyday traffic to track use
- Legendary 6.1-liter HEMI® V-8 engine produces 317 kW, 569 N•m of torque and delivers 0-100 kph performance in the low 5-second range
- Chrysler 300C SRT8's interior environment features carbon-tech trim, bright metallic accents, soft-touch trim materials and premium sport-contoured leather seating with suede inserts
- High-level of safety and security equipment, including supplemental side-curtain air bags and advanced driver and front-passenger air bags

September 15, 2009, Frankfurt, Germany -

The "face of Chrysler" continues to deliver outstanding performance to match the elegant design on this award-winning E-segment sport sedan.

Benchmark performance, premium amenities and race-inspired styling make the Chrysler 300C SRT8® distinctive in the marketplace. Powered by the Street and Racing Technology-engineered 317 kW 6.1-liter HEMI® V-8 paired with a five-speed Auto Stick transmission, the Chrysler 300C SRT8 boasts performance-tuned world-class ride and handling, benchmark braking performance and premium interior appointments.

SRT performance figures include: 0-100 kph in the low 5-second range, 0-160-0 kph in less than 17 seconds and 0.89g on the skid pad. The Chrysler 300C SRT8 is an iconic, award-winning sedan loaded with comfort and style. Interior appointments include the SRT-exclusive Electronic Vehicle Information Center (EVIC) with Performance Pages.

Chassis setup for the Chrysler 300C SRT8 is aimed at all-around performance, including SRT-tuned Bilstein monotube dampers, specially tailored spring rates and suspension bushings and large-diameter anti-sway bars for a firmly damped ride during performance driving for added driver control without compromising low-speed driving comfort. Front- and rear-suspension knuckles contribute to a ride height that's lowered 12 mm from the Chrysler 300C. The Electronic Stability Control (ESC) has been SRT-tuned, resulting in the system-sensing lateral acceleration that effectively primes the system in anticipation of the next brake application.

Benchmark braking performance results from a four-wheel disc-brake system featuring performance calipers developed by Brembo, each equipped with four pistons for even clamping. The Chrysler 300C SRT8 has 360 mm x 32 mm vented rotors up front and 350 mm x 28 mm vented rotors in the rear. The result is 100-0 kph braking performance of less than 36 meters. The SRT-exclusive braking system includes brake-knockback mitigation software for even better track response.

Exterior styling combines sophisticated, premium elegance with functional performance enhancements. Front and rear fascias include unmistakable SRT cues, such as air ducting for brake cooling and the integrated rear deck-lid spoiler, which increases rear downforce without increasing drag. Other touches include body-color front and rear bumper inserts and wheel flares, body-color mirrors and door handles and unique SRT badging.

Chrysler 300C SRT8®
AT A GLANCE

Chrysler 300C SRT8® offers ultimate sedan performance and continues the legendary momentum of Chrysler 300C sedan and HEMI 6.1-liter V-8 engine

- Powered by a 6.1-liter HEMI® V-8 producing 317 kW and 569 N•m of torque, the Chrysler 300C SRT8's powertrain and performance-tuned ride and handling offer a world-class performance sedan experience
- Renowned SRT performance includes 0-100 kph in the low 5-second range, 0-160-0 kph in less than 17 seconds and 0.89g on the skid pad
- Fully adaptive electronic control of all shifting makes the five-speed Auto Stick transmission feel responsive without harshness
- Limited-slip differential offers performance any driving enthusiast will love
- SRT formula infuses the Chrysler 300C SRT8 with sophisticated ride-and-handling characteristics suitable for conditions ranging from everyday traffic to track use
- Chrysler 300C SRT8 is part of a broad lineup of Street and Racing Technology vehicles developed under the credo "Race inspired, street legal"

Premium interior features and technology

- Chrysler 300C SRT8 includes carbon-tech trim, bright metallic accents, soft-touch trim materials and premium sport-contoured seating
- Available 13 SRT high-performance Kicker speakers with a 322-watt digital amplifier and 100-watt subwoofer
- Available Uconnect™ Multimedia features a 30-gigabyte hard drive for ripping up to 6,700 songs from CD or USB memory devices in a compressed format, photo uploading for home screen personalization and the ability to display movies when the vehicle is in Park
- Available Uconnect Phone features Bluetooth technology to provide voice-controlled wireless communication between the occupants' compatible mobile phones and the vehicle's onboard receiver
- Available Uconnect Navigation combines the features of Uconnect Phone and Uconnect Multimedia with navigation real-time traffic updates

High-level of advanced safety and security features, including:

- Advanced multi-stage driver and front-passenger air bags
- All-speed traction control
- Anti-lock Brake System (ABS)
- Brake Assist
- Brake-traction Control System (BTCS)
- Child seat anchor system: (LATCH/ISOFIX)
- Electronic Stability Control (ESC)
- Enhanced Accident Response System (EARS)
- Parksense® rear-park assist system
- Rain-sensing wipers
- Side-occupant protection system
